

Baroma Steel
Winker Light

Offshore & Marine

PRODUCT INFORMATION

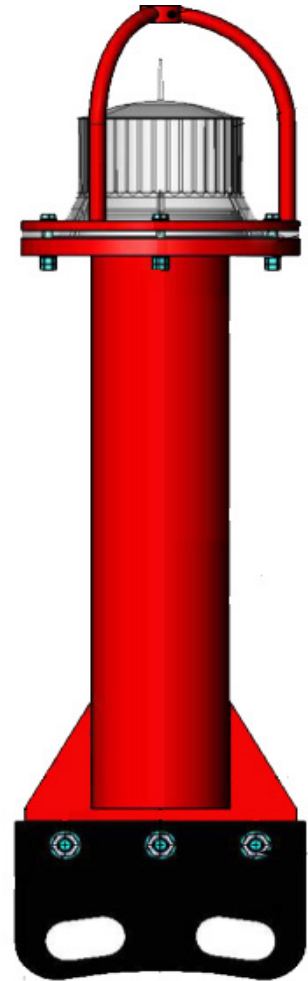

Baroma Steel

Rubber Winker Lights

BSSPWLR Series

Features

- Baroma Steel Rubber Winker Light is flexible during collision, minimising damages on the body and the lighting assemblies.
- Body material similar to the loading/unloading hose used on FPSO proven to withstand the toughest environment.
- Durable waterproof LED flashing light.
- Power is provided by a bank of rechargeable batteries, which are charged by a built-in solar panel.
- Attachable to any size floating hoses.

**Depending on the type of material chosen and the combination of conditions are not always considered.*
